## **NOTICE OF ALLOWABILITY**

### ***Reasons for Allowance***

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowable because the prior art alone or in combination does not teach or fairly suggest a shielded assembly comprising a nanomagnetic material having a saturation magnetization of about 1 to about 36,000 Gauss, a coercive force of about 0.01 to about 5000 Oersteds, a relative magnetic permeability of about 1 to about 500,000, and an average particle size of less than about 200 nanometers, taken in combination with the other claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Closing***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Durand (US 5,047,260) shows a shielding material comprising nanomagnetic material.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carmelo Oliva whose telephone number is (571)272-
